Location: Corporate and Continuing Education Center at Everett Community College- WA 98203

Lean Practices Overview-This class provides participants with a basic understanding of Lean principles, and how they are applied to the workplace. Lean is a systematic management approach designed to improve the production process, and enhance the method of providing a product or service to a customer in the shortest time at the lowest cost. Lean focuses on reducing or eliminating the eight types of waste, which commonly account for 95 percent of the total process time. Course content provides an introduction to the Lean system, including Lean tools such as: Just in time, Kanban, Standard Work, 5S and 5 Whys.
