

## Filter Project View in Project Explorer

Tue, 12/07/2010 - 13:41 — chaos7

I am using a trial of Organizer. Some of my projects have a substantial number of emails causing it to take a long time to load--retrieving artifacts. Is there a way to filter it so I only see emails after a certain date? Or to only see tasks? Otherwise it slows me down quite a bit to use it for entering a quick task, etc.

Thanks.
