# Link single contact to multiple projects

Wed, 12/22/2010 - 09:35 — edjackson
Is there a way to link a single contact to multiple projects?

When I attempted to select more than one project on a contact in Outlook 2010, I was not able to do so.

I tried holding down the shift key and then the control key when selecting a project, but I was not able to select more than one project for a contact.

Thanks for your help.
