Ceptara/Toodledo/Outlook task folders

I am using Ceptara, Toodledo and Outlook. I access Toodledo on my iPhone and my PC. I have assigned folders to my tasks in Toodledo and the task assignments disappear periodically. The folders still exist, but there aren't any tasks in them and when I look at each task, it says "No Folder". I suspect it's an issue of syncing through Ceptara. Any advice?
