Request: Project grouping

I find Organizer a great product. A feature I consider "nice to have" would be the ability to group projects (only in Project Explorer) in custom "folders" or a tree-like structure, i.e

- Projects
  - Personal improvement
    - Fitness
      - PROJECT 1
      - PROJECT 2
    - Health
      - PROJECT 3
  - My trip to Europe
    - PROJECT 4
    - PROJECT 5

... IMO this groups represent "higher levels" of goals and would be helpful in the specific activity of reviewing the current planning of projects - probably not used on a daily basis, when tracking tasks or assigning tasks to projects. Regards, Jose
