toodledo sync

Mon, 04/04/2011 - 00:16 — svenna

hi, I'm trying to sync with toodledo and encounter some kind of problem :) It seems that it never fully syncs. I had everything removed from the toodledo database and tried to resync everythin. the initial sync resulted in a sync log ending like below. Is the governing limit a ceptara or toodledo limit? And also, when i have the sync active it obviously tries to sync sometimes syncs a couple of tasks. It always brings forward the reminder dialog though with the annoying sound.

Any suggestions? i can send you the full log if you want.

2011-04-04|09:43:13|Outlook|3.5.1002.1|Found 0 ToodleDo records to sync.
2011-04-04|09:43:13|Outlook|3.5.1002.1|Processing 419 synchronization records.
2011-04-04|09:43:13|Outlook|3.5.1002.1|Synchronization aborted, encountered the governing limit of transactions to process.
2011-04-04|09:43:13|Outlook|3.5.1002.1|Processed 0 out of 419 synchronization records.
2011-04-04|09:43:13|Outlook|3.5.1002.1|Synchronization complete, Duration: 0,28 min (17 sec), Latency: 4 670 347,37 sec
