Email lost from project when moved to another folder

Tue, 04/05/2011 - 20:29 — frasersnow
When working on a project one of my challanges is keeping all of the information together. I can save a sent and recieved email to a project - perfect. I have found that if I then move the email in outlook to my archive PST file, it dissapears from the project also. Is there a way to "copy" the email to the project or maintain the link?

Thanks, Fraser
