

Migrating from WinXP 32bit to Win7 64bit

Sun, 07/03/2011 - 07:13 — olivier.zaech

Hi,

What is the recommended procedure to migrate all current projects (~30) from a WinXP 32bit MS-Office/Outlook 2007 Version of Ceptara v 3.1 to a newly installed HW/OS running on Win7 64bit MS-Office/Outlook 2010?

Thanks for any advice
