

Attachments not showing up in ToodleDo

Mon, 08/29/2011 - 02:03 — plc5700
Hi

When I defer an e-mail that I have received to a task I embed to original mail as an attachment because there are normally attached files and so on.

I synchronize with toodledo, but On toodledo - all attachments and a lot of information is missing - why is that?
