

Keyboard Shortcuts and Drag & Drop

Tue, 01/24/2012 - 17:36 — hcadrexel

Do you foresee the availability of more keyboard shortcuts and/or drag & drop in future updates? For instance, if I want to delete a group of tasks in the explorer, I have to go one-by-one, correct? Also, if I want to easily change the focus of a task, I would like to be able to drag & drop the task.

Thank you.

Henry
