

"My Organizer" View not installed when installing PPlug-In

Thu, 02/16/2012 - 13:31 — Mark Steele

Hi guys, I just installed the plug in and noticed in the documentation it references and shows a VIEW called My Organizer that looks like what I'd like, but it was not installed with my plug-in. any help in either getting it installed or building it would be nice, help? thank you

Mark
