Lean Six Sigma Green Belt - Advanced Topics (1.8 CEUs)

Building on the Six Sigma Green Belt Foundations course, Advanced Topics introduces more concepts, tools and techniques for the phases of a Six Sigma improvement initiative, namely strategy, deployment and execution of a Six Sigma DMAIC project. Learn best practice approaches that can be applied immediately in your work. Enhance the understanding of the DMAIC (define, measure, analyze, improve and control) approach with additional concepts related to quality principles and systems, strategy, process management, lean principles in the organization, team management and best practices for continuous improvement. Prerequisite: Lean Six Sigma Green Belt- Foundations. This course completes the coverage for the American Society for Quality (ASQ) Body of Knowledge. Class is offered in partnership with Ceptara and is taught by Ceptara Six Sigma Black Belt instructor.
