when will there be a toodledosync update?

Mon, 09/24/2012 - 04:05 — jupp25

hi,

any chance of getting a better toodledo sync?

sub tasks

seprarate tag and goal field, it still could also be mapped to categories, like your "focus" field. for a better gtd workflow and also get a better usage on gtd apps i.e. on android dgt gtd

and what also would be great, to get away from those project code`s, or implemant a more flexible project sorting and use internal coding

higher sync speed with api2.0

thx and greets

chris
