Organizer Install error - compatible NET Framework not installed

Mon, 08/04/2014 - 22:37 — mmfalcon
Cannot install Trial Organizer files on PC running XP Pro SP3, with updated NET Framework 3.5 and 4.1installed. Running Outlook 2007, fully updated.

Error message aborts the install and reads that install cannot be completed, because compatible version of NET Framework is not installed.

Suggestions how to address this iisue, so that the Organizer Trial may be installed?
