Ceptara's FocusMe for Outlook Launching Soon

Mon, 09/15/2014 - 14:04 — Chris

The FocusMe add-in for Microsoft Outlook 2013 is nearly ready. FocusMe for Outlook is the next generation of the Organizer for Outlook tool. In a few more weeks we'll be launching the FocusMe Pro version.

If you're a Ceptara Organizer for Outlook purchaser and you'd like to get access to the FocusMe beta program, now's your chance. For a limited time, Organizer buyers can get a free 12 month subscription to the FocusMe tool. FocusMe is written for Outlook 2010 and 2013 - so if you're planning on upgrading to Outlook 2013, you'll need the FocusMe application, Organizer isn't 100% compatible with Outlook 2013.

You can learn about the FocusMe capabilities by visiting the Ceptara FocusMe product [page] [1] - if you'd like to sign-up for the FocusMe beta, you can do so [here] [2].

Thanks to all that have purchased Organizer - many of you are longtime users and supporters. I'm excited for our next generation of tools, building on the personal excellence practices you've come to love in Organizer combined with the team collaboration features we've introduced in FocusMe.

Cheers
Chris Lindstrom
